Fourtimes ME

Viermal ICH

review

After a century of underserved obscurity, Maria Lazar's work is in the process of being rediscovered. *Fourtimes ME* is a story of female friendship and betrayal, as well as an account of the societal challenges faced by women during the 1920s.

Lazar's work is a valuable addition to the European modernist canon, alongside contemporaries such as Ilse Aichinger and Irmgard Keun. This novel is reminiscent of Virginia Woolf both for its stream-of-consciousness narrative and for its feminist politics, and Lazar's witticisms and dark humour evoke Anita Loos and Dorothy Parker.

Fourtimes ME offers fascinating insights into women's lives during the rapidly changing Weimar era. The narrator is the youngest daughter of a banker's family of four in an unnamed European city after World War I. The narrator often feels invisible, and her identity is so porous she sometimes does not recognise herself in the mirror. She experiences the world through her three on/off friends: pale, pretty Grete, sharp, athletic Ulla, and alluring, lower-class Anette.

In an attempt to define herself, the narrator starts to write. She first confesses to minor betrayals of the women in her life, before working up to her more significant, final betrayal when she embarks on an affair with Grete's husband Axel, while Grete is giving birth to their first child. This sets the stage for the novel's exploration of (the limits of) women's solidarity in a world that – despite the Weimar era's new

possibilities – is still ruled by men.

When the narrator becomes pregnant, Ulla helps to arrange a hospital abortion. The narrator takes an overdose of opiates but is saved by Anette. After Grete dies miscarrying her second child, the narrator collapses and is kicked out of her home for not paying rent. She decides to marry Axel, but this is anything but a happy ending: she already knows he will not be faithful and any daughter they may have will suffer under the same patriarchy.

The novel's four women suffer individually, as well as collectively, from the patriarchal structures that define their lives. *Fourtimes ME* draws a sharp picture of the distinct characters and circumstances of the four women, while the novel's recursive structure matches the narrator's increasing despair and her occasional flits into other women's consciousness have a powerfully disorienting effect. With its frank discussion of taboos, including abortion, menstruation, masturbation, sexual abuse, sex work, STIs, and lesbian sex, this is an eye-opening, feminist view on the Weimar era.

Leben verboten! was another New Books in German recommendation by Maria Lazar and was Ö1 Book of the Month (Juli 2020), Österreichbestseller.

about the author

© unknown

Maria Lazar (1895–1948) came from a wealthy Jewish family in Vienna. She completed her schooling at the famous girls' secondary school run by Eugenia Schwarzwald, in whose salon Oskar Kokoschka painted her in 1916 and where she met many prominent figures from the Viennese cultural scene including Adolf Loos, Hermann Broch and Egon Friedell.

From the early 1920s she worked as a translator and wrote for renowned Austrian, Scandinavian and Swiss newspapers.

It was only when she adopted the Nordic pseudonym Esther Grenen that she achieved the literary fame she deserved; however, her success came to an abrupt end with the seizure of power by the National Socialists.

Repression led her to leave Austria with her daughter for exile in Denmark as early as 1933, along with Bertolt Brecht and Helene Weigel.

In 1939 she fled to Sweden, where she ended her life in 1948 after a protracted terminal illness. Her bold and wide-ranging literary works were completely forgotten by 1945.

Die Vergiftung, DVB (2014); *Die Eingeborenen von Maria Blut*, DVB (2015).
